HEIRSHIP PRESUMPTIVE OF HAWAII'S THRONE

Editor Advertiser.-The statement in the Advertiser of this date that the late Prince David was "Heir Presumptive" to the throne of Hawaii, is liable to be misunderstood, and is not in accordance with the law of succession as provided for in the Constitution of ele and Honokaa, 4:30 a. m. 1887, article 22 of which is as follows:

"The crown is hereby permanently confirmed to His Majesty Kalakana, and to the heirs of his body lawfully begotten, and to their lawful descend- 2:40 a. m. ants in a direct line; failing whom, the crown shall descend to Her Royal High- Eleele. ness the Princess Liliuokalani, and the heirs of her body, lawfully begotten, and their lawful descendants in a direct line. Sick headaches arise from a variety of disturbances confined to the stomach and digestive tract and most of them can be cured or relieved to a marked degree. The tonic treat-ment with Dr. Williams' Pink Pills has been successful in a large number of cases, one of which is that of Mrs. Mary A. Terry of 721 East Main street, Clinton, Ill. She says:

"For thirty years I was subject to sick headaches. They began when I was a young girl and would occur as often as two or three times a week, was so great that the blood-vessels in my head would swell up, my eye-San Francisco-Sailed, June 3. A WONDERFUL DISCOV-

This is the age of research and experiment, when all nature, so to speak, is ransacked by the scientific for the comfort and happiness of man. Science has indeed made riant strides during the past century, and among the journal of the most genuine and reliable Patent Medicine comes that of THERAPION.

This preparation is unquestionably one of the most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the Continental Hospitals by Ricord, Rostan Jobert, Velpenu, Maisonneuve, the well-known Chassaignac, and indeed by all who are regarded as authorities in such matters, including the celebrated Isalemand, and Roux, by whom it was some time since uniformly adouted, and that it is worthy the attention of these who require such a remedy we think there is no doubt. From the time of Aristotle downwards, a potent agent in the removal of these diseases has (ble the famed philosopher's stone) been the object of search of some hopeful, generous minds, and far beyond the mere power—of such could ever have been discovered—of transmitting the baser metals into gold is surely the discovery of a remedy so potent as to replenish the failing energies in the one case, and in the other so effectually, spendily and safely to expel from the autem the poisons of acquired or inherited disease in all their procean forms as to leave no taint or trace behind. Such is the New Prench Remedy THERAPION, which may certainly rank with, if not take precedence of, many of the discoveries of our day about which no little estentiation and noise have been made, and the extensive and ever-increasing demand that has been created for this medicine wherever introduced appears to prove that it is destined to east into oblivion all those questionable remedies that were formerly the sole reliance of medical men.—Diamond Field Advertiser, Kimberley.
